

# REAL-TIME VIRTUAL TOURS

## You're invited

## TO TOUR OUR MANUFACTURING FACILITIES

Join us as we take you on a live guided tour through ABEC's CSR® Single-Use Process area, CSR Disposable Container (DC) Manufacturing ISO-7 clean rooms, and the bioprocess equipment manufacturing floors of our USA & Ireland Facilities.

A typical tour includes:

- In-depth views of the industry's largest CSR single-use bioreactor and fermenter
- CSR HMI and runtime visual
- Inoculation prep room and cell trial capability
- Microbial/mammalian cell process capabilities
- View DC manufacturing in progress and an explanation of material flow and DC quality measures
- Manufacturing floor walkthrough showcasing bioprocess engineering and equipment
- Q&A with ABEC bioprocess engineers and product experts
- and more.

ABEC is the only supplier in the world who can offer customized stainless steel, single-use, and hybrid bioprocess solutions. With a global capacity of nearly 32,000m<sup>2</sup> in manufacturing space, ABEC's ability to build equipment and complex large-scale system configurations is unrivaled.

Email [info@abec.com](mailto:info@abec.com) or visit [abec.com](http://abec.com) to schedule your tour to learn more about ABEC's industry leading capacity and capability.
